

AIM Global's Outlook and Predictions

Nearly two dozen of the most respected thought leaders in the industry offer their predictions on what's in store for 2024. The insights from these experts will be shared in upcoming issues of this newsletter.

The RFID Program Director for [TSC Printronix](#) - [Chris Brown](#) declares that the biggest threats facing data capture solution providers are generally weak economic conditions, supply chain issues and complex regulatory environments.

READ

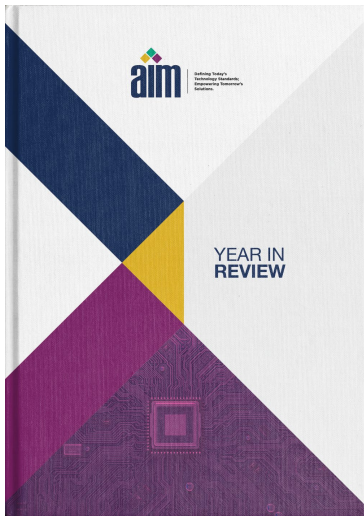

TSC Printronix is a leading provider of innovative thermal label printing solutions. Founded in 1991, we own and operate ISO certified production facilities and have offices around the world, serving customers in more than 100 countries.

AIM Year in Review 2023: Strong Year for Business, But Not Business as Usual

AIM Global [recounts 2023](#), a year filled with growth toward more information-rich, AIDC-enabled packaging and traceability that was evident beyond retail and extend to distribution, production, food service, healthcare, cannabis, and other vertical markets.

The *Outlook and Predictions* section features some of the most respected thought leaders in the industry who offer their predictions on what's in store for 2024.
